ExpressCard™

Interoperability Event #7 Results

Congratulations! After review of the results of the ExpressCard Interoperability Event by PCMCIA's ExpressCard Compliance Program Evaluation Panel, your product:

APIOTEK Co., Ltd.

24in1 ExpressCard Adapter (EC-CR24)

Case #: 00420

has PASSED the Interoperability phase of the ExpressCard Compliance Program.

Issues reported in Gold Suite testing:

No issues reported in Gold Suite testing.

Thank you for participating in our Interoperability Event, demonstrating the continuing momentum of the ExpressCard Standard. Your participation in this event serves as an indication to the rest of the computer hardware industry that ExpressCard technology is being embraced as the next external I/O expansion standard for desktops and notebooks.

In order for your product to successfully complete the ExpressCard Compliance Program, the ExpressCard Compliance Program Evaluation Panel must review both the Compliance Checklist and Interoperability Event results for your product. Please submit your completed Compliance Checklist for review by the Panel.

Sincerely,

Brian Ikeya
